

Tutorial 24

Creating Your Own Printable Products with AI

Objective

By the end of this tutorial you will be able to:

- Understand what printable products are.
- Discover profitable printable ideas.
- Use AI to create printable content quickly.
- Sell or give away your printables online.

Why Printables?

Printables are one of the easiest digital products to create because:

- No stock to keep
- No postage
- Create once, sell many times
- Perfect for beginners
- AI does most of the writing

Many retirees earn extra income selling simple planners, checklists and worksheets.

Popular Printable Ideas

AI can help you create:

- Budget planners
- Shopping lists
- Meal planners
- Gardening journals
- Daily planners
- Travel planners
- Password logs
- Medical information sheets
- Christmas gift planners
- Bible study journals
- Goal planners
- Habit trackers
- To-do lists
- Pet care records
- Emergency information forms

Each can become part of a larger product bundle.

Using AI to Create Printables

Instead of spending hours designing from scratch, simply ask AI.

Example prompt:

Create a clean, easy-to-read weekly meal planner suitable for senior citizens. Include breakfast, lunch, dinner, shopping list and notes.

Another prompt:

Design a monthly budget planner with income, expenses, savings and notes.

Or:

Create a medication tracker with columns for medicine name, dosage, time and completed.

Within seconds AI provides a draft you can edit.

Bundles Sell Better

Instead of selling one printable...

Create a bundle containing:

- Daily Planner
- Weekly Planner
- Monthly Planner
- Goal Planner
- Budget Planner
- Shopping List
- Notes Pages

People love buying complete sets.

Where Can You Sell?

Some popular marketplaces include:

- Etsy
- Gumroad
- Payhip
- Your own website
- Your membership site

You can also use them as bonuses for building your email list.

Keep the Design Simple

Good printables are:

- ✓ Easy to read
- ✓ Plenty of white space
- ✓ Large fonts
- ✓ Black and white printing friendly
- ✓ Useful

Fancy graphics are less important than usefulness.

Improve with AI

Ask AI things like:

How could this planner be more useful?

or

Suggest five additional pages for this planner.

AI often gives ideas you would never have considered.

Your First Printable Project

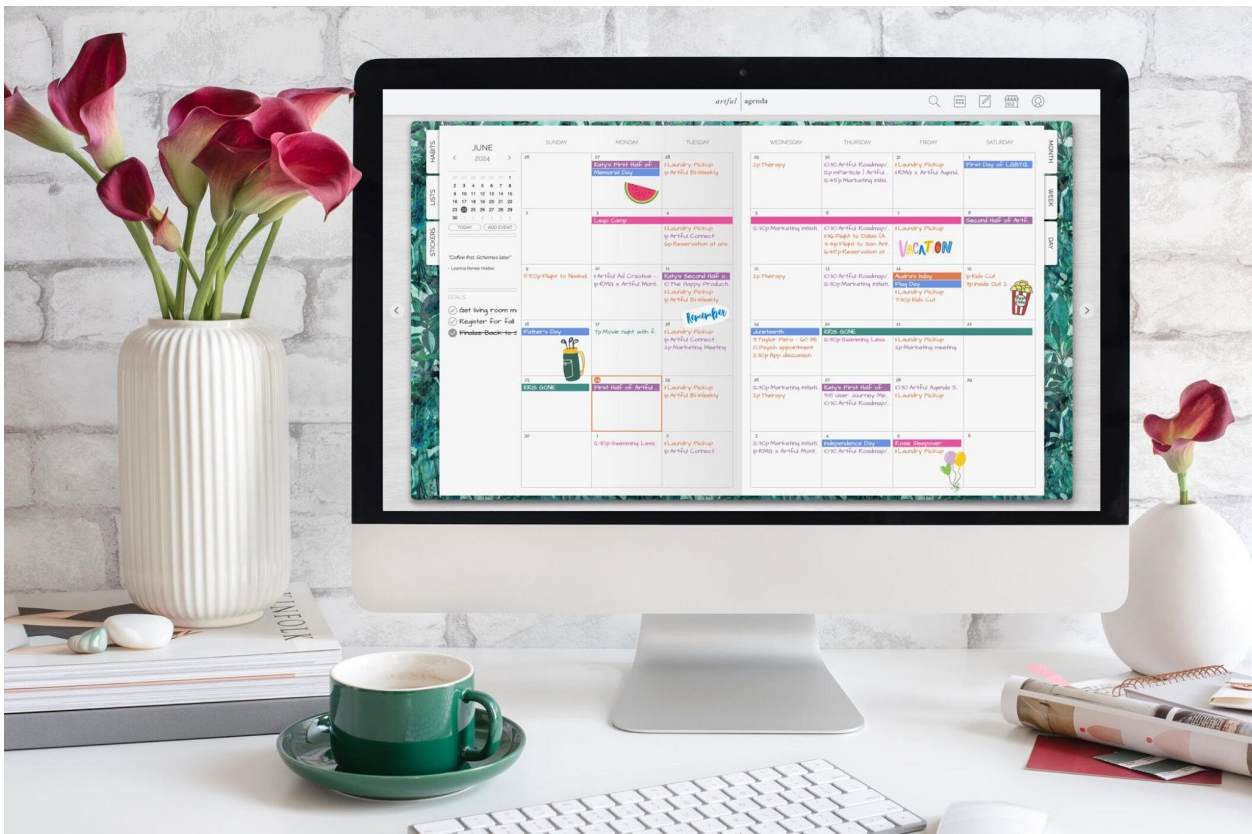

Create:

A Retirement Planner Pack containing:

- Daily Planner
- Weekly Planner
- Budget Planner
- Medical Information Sheet
- Emergency Contacts Page
- Important Password Record
- Goal Planner

You now have a valuable digital product.

Key Takeaways

- ✓ AI makes creating printables easy.
- ✓ Focus on solving everyday problems.
- ✓ Bundles are worth more than single products.
- ✓ Printables can create passive income.

✓ Start simple and improve over time.

Action Step

Ask AI to create one printable today.

Even a simple planner could become the beginning of your first digital product.

Discover how you can use AI every day with confidence.
