

Worksheet 52

My Smart Home Independence Plan

Step 1: Identify Priority Home Areas

- Select up to two areas in your home you would like to make safer or easier to manage:
 - [] Bedroom / Hallway (Night lighting & fall prevention)
 - [] Kitchen (Hands-free appliances & reminders)
 - [] Entryways (Smart locks & doorbell cameras)
 - [] Bathroom (Accessibility & environmental control)

Step 2: Define Your Core Automation Goal

- What daily task or safety concern would you like AI and smart tools to help with?
 - *(e.g., Automatically turning on hallway lights if I get up at night)*
 - **My Goal:**
-

Step 3: Test a Voice Routine Setup Prompt

- Fill in the blanks and submit this prompt to your AI assistant:
- *"Act as my Smart Home Companion. Design a step-by-step setup guide using simple, affordable smart devices to solve this goal: **[Insert Your Goal]**. Keep instructions beginner-friendly."*

Step 4: Reflection & Next Step

- What is 1 small smart device (e.g., smart plug, smart bulb, motion sensor) you could try installing this week?
