

Worksheet 63

My Travel Photo & Memory Keeping Plan

Use this step-by-step action guide to transform your cluttered camera roll into a beautifully organized, story-filled travel album.

Step 1: Project Setup & De-Cluttering

- **Trip / Event Name:**

- **Approximate Number of Photos Taken:**

- **Target Keepsake:**

- [] Physical Printed Photobook (e.g., Mixbook, Shutterfly, Chatbooks)
- [] Digital Travelogue / Slide Deck (e.g., Canva, PDF)
- [] Social Media / Digital Album Share

Action Items:

1. [] Run your phone's auto-deduplication or quality filter to delete blurry and exact duplicate shots.
2. [] Select your top **30–50 "Hero Shots"** that best tell the story of your trip and move them into a dedicated folder (e.g., *"2026 Italy Trip — Best Hits"*).

Step 2: Uncover Mystery Landmarks with AI Vision

Got a photo of a building, statue, or trail marker you can't remember the name of? List your mystery photos below and use **Google Lens** or **Apple Visual Look Up** to identify them.

Photo # / Description	Identified Landmark / Location	Historical / Fun Fact (Discovered via AI)
Ex: Photo 014 (Old brick tower)	<i>Torre del Mangia, Siena, Italy</i>	<i>Built in 1338–1348; stands 102 meters tall.</i>
1.		
2.		
3.		

Step 3: AI Touch-Up & Cleanup Checklist

Review your curated photo batch and mark down any images needing visual touch-ups using tools like **Magic Eraser**, **Lightroom AI**, or **Photoshop Generative Fill**:

- ☐ **Crowd / Distraction Removal:** Image numbers needing tourists or utility lines removed: _____
- ☐ **Lighting / Sky Fix:** Image numbers with backlit subjects or dull gray skies: _____
- ☐ **Cropping & Straightening:** Image numbers needing

frame adjustments: _____

Step 4: Generate Your Story Captions

Upload a small batch of related photos (3–5 at a time) to your preferred AI assistant (ChatGPT, Gemini, or Claude). Copy and paste the prompt below into your chat:

Caption Prompt:

"I am creating a personal travel album about my trip to [Destination]. Look at the uploaded photos and write short, engaging captions for each one. Include a mix of warm personal commentary, historical context for any visible landmarks, and fun details. Keep the tone conversational, reflective, and concise (2-3 sentences per photo)."

Drafting Space: Write down or paste your favorite AI-generated captions below, along with your personal additions:

- **Photo 1 Caption:**

- **Photo 2 Caption:**

- **Photo 3 Caption:**

Step 5: Final Layout & Printing Progress

- ☐ **Upload:** Import your cleaned, enhanced photos into your chosen photobook tool.
- ☐ **Auto-Layout:** Allow the software's AI engine to generate the initial chronological sequence.
- ☐ **Add Narrative:** Copy your finalized captions onto the corresponding pages.
- ☐ **Personal Review:** Ensure page order flows logically and headline text is accurate.
- ☐ **Order / Export:** Hit **Print** or generate your shareable link!
