## 25 Ways Retirees Can Use AI to Save Time and Make Extra Income

Simple, practical ways to use today's AI tools to save hours each week, stay productive, and create new income opportunities—without needing technical skills.

**By Matt Maré**

Retired Engineer & Practical AI Enthusiast

# Welcome

Many retirees have decades of valuable experience, knowledge, and skills.

Today, Artificial Intelligence (AI) makes it easier than ever to:

- ✓ Save time on everyday tasks
- ✓ Learn new skills faster
- ✓ Stay organized
- ✓ Create additional income streams
- ✓ Share your knowledge with others

This guide will show you 25 practical ways to start using AI today.

No technical background required.

# Part 1: Use AI to Save Time

## 1. Write Better Emails in Minutes

Ask AI:

"Write a friendly email to my insurance company asking about policy updates."

AI can create professional emails in seconds.

**Time Saved:**

15–30 minutes per email

## 2. Create Shopping Lists

Ask AI:

"Create a healthy shopping list for two people for one week."

**Time Saved:**

30 minutes per week

### **3. Plan Family Holidays**

AI can:

- Suggest destinations
- Compare costs
- Build itineraries
- Recommend attractions

**Time Saved:**

Several hours

### **4. Organize Your Daily Schedule**

Ask:

"Create a simple retirement schedule that includes exercise, hobbies, and family time."

---

### **5. Simplify Complex Documents**

Paste a document and ask:

"Explain this in plain English."

Useful for insurance, banking, and contracts.

## 6. Create Meal Plans

Generate weekly menus and shopping lists instantly.

---

## 7. Budget More Effectively

AI can help:

- Track spending
  - Create budgets
  - Suggest savings opportunities
- 

## 8. Research Purchases

Before buying anything, ask AI to compare features and options.

---

## 9. Learn New Skills Faster

Use AI as a personal tutor.

Examples:

- Photography
- Gardening
- Woodworking
- Technology

## 10. Create Exercise Plans

Generate age-appropriate fitness plans based on your goals.

---

# Part 2: Use AI to Earn Extra Income

## 11. Write and Sell eBooks

Use AI to:

- Brainstorm ideas
- Create outlines
- Draft chapters

Possible topics:

- Gardening
  - Fishing
  - Travel
  - Family history
  - Professional expertise
- 

## 12. Start a Simple Blog

AI can help:

- Generate article ideas

- Draft content
- Create headlines

## 13. Create a Local Information Website

Examples:

- Local attractions
- Retirement resources
- Community events

## 14. Offer AI-Assisted Resume Services

Help job seekers improve resumes using AI tools.

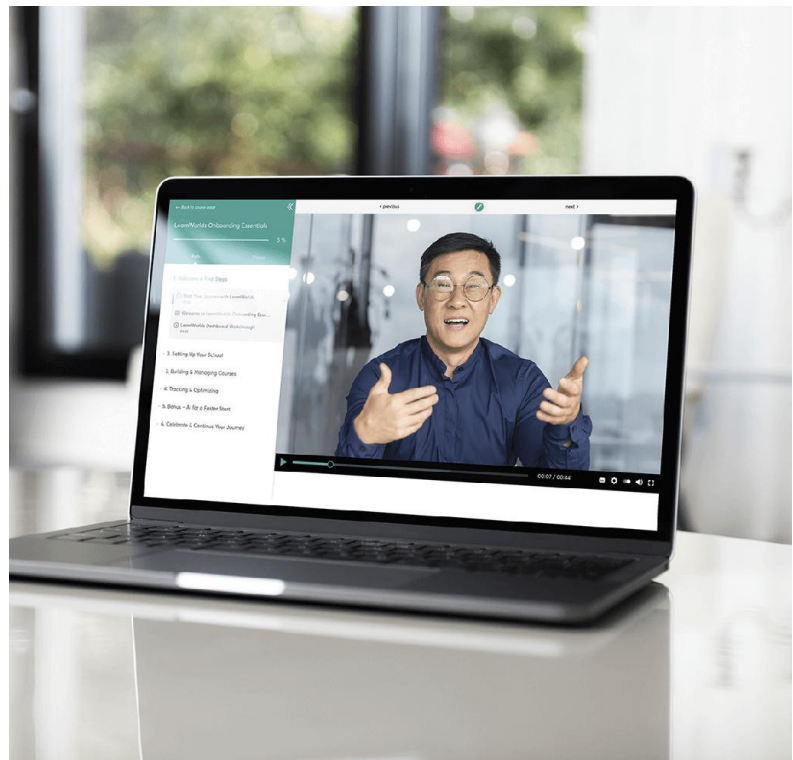

---

## 15. Create Printable Products

Examples:

- Planners
- Checklists
- Journals

Sell on online marketplaces.

## 16. Create Social Media Content

Use AI to create:

- Facebook posts
- Images
- Quotes
- Newsletters

For local businesses.

---

## 17. Build Simple Websites

AI tools now help create websites with little technical knowledge.

---

## 18. Start a Newsletter

Share:

- Local news
  - Retirement tips
  - Hobbies
  - Special interests
- 

## 19. Create Online Courses

Teach skills you've learned during your career.

Examples:

- Engineering
  - Accounting
  - Gardening
  - Crafts
- 

## **20. Become a Virtual Assistant**

Use AI to help clients:

- Manage emails
- Schedule appointments
- Create documents

## **21. Write Family Histories**

Many families want professional-looking family stories and memory books. AI can assist with writing and formatting.

---

## **22. Create Travel Guides**

Turn your travel experience into useful guides for others.

---

## **23. Research for Small Businesses**

Many small business owners need help gathering information online.

---

## 24. Create Digital Downloads

Examples:

- Checklists
- Templates
- Worksheets

Create once and sell repeatedly.

---

## 25. Turn Your Experience into Income

The greatest asset most retirees possess is experience.

AI helps you package that experience into:

- Articles
- Guides
- Courses
- Consulting
- Membership communities

without needing advanced technical skills.

You don't need to become a technology expert. You simply need practical tools that help you save time and create new opportunities.
